### POLINA

Trained from an early age by rigorous, perfectionist Professor Bojinski, Polina (Shevtsova) is a promising dancer. She is just about to join the prestigious Bolshoi Ballet when she discovers contemporary dance. That throws everything into question on a profound level. Polina leaves it all behind and moves to France to work with famous choreographer Liria Elsjaj (Binoche). Despite her determination and hard work to the point of obsession, Polina just can't seem to break through. **Drama, World cinema | 1 hour 48mins | PG | Violence, coarse language & sexual references | French and Russian with English subtitles | France.**

### THE JOURNEY

Timothy Spall and Colm Meaney star in this drama chronicling the events preceding the 2006 St. Andrews Agreement, which brought peace to Northern Ireland. Today's headlines can make it tough to believe in the possibility of peace between warring factions. Yet this is just what happened only 10 years ago, when the Democratic Unionist Party and Sinn Féin (the political party of the Irish Republican Army) signed the St. Andrews Agreement, bringing peace to Northern Ireland after nearly 40 years of violence. **The Journey** dramatises the negotiations that led to the Agreement — negotiations that transpired not in some hallowed hall but, rather, in a minivan traversing the Scottish countryside. **Drama | 1 hour 34mins | M | Offensive language | UK**

### THIS BEAUTIFUL FANTASTIC

A reclusive young woman who dreams of becoming a children's author finds an unlikely mentor in the rich curmudgeon who lives next door. When Bella is forced by her landlord to deal with her neglected garden or face eviction, she meets her nemesis, match and mentor in Alfie Stephenson, the grouchy, loveless old man next door who also happens to be an amazing horticulturalist. **Comedy, Drama, Fantasy, Romance | 1 hour 32mins | PG | Coarse language | UK, USA**

### THE ARTIST'S GARDEN: AMERICAN IMPRESSIONISM

The third instalment of the EXHIBITION ON SCREEN 2017 series, this time covering the forty year movement, that took its lead from the French Impressionists but was closely tied to a love of gardens and a desire to preserve nature in a rapidly urbanizing nation. **Documentary | 90mins | E | UK**

### **A MINDFUL CHOICE**

New Zealand documentary on mindfulness and meditation. The film - produced by two Ishaya monks from Greymouth - raises the possibility that humanity could live in peace. For this, a shift in consciousness is required; a shift that starts with each of us choosing for our own inner peace and happiness. **Documentary | 1 hour 13mins | G | New Zealand**
